Siwan,Bihar | Current:Lucknow,Uttar Pradesh

CAREER OBJECTIVE

To obtain an opportunity in a growth-oriented organization where I can apply my technical skills, problem-solving abilities, and business understanding while continuously learning and contributing to the organization's success.

EDUCATION

Qualification	Institution	University / Board	Year	CGPA / Percentage
B.Tech (CSE)	Integral University, Lucknow	Integral University	2027	6.5 CGPA
Class XII	Z.A. Islamia College, Siwan	Bihar Board	2023	52.2%
Class X	DAV High School, Siwan	Bihar Board	2021	66.8%

TECHNICAL SKILLS

Category	Skills
Programming Languages	Python, JavaScript, HTML
Web Development	React.js, Vite
Database	Supabase
Tools & Technologies	Git, GitHub, VS Code

PROJECTS

Project 1 — — Explainable AI-Based Fake Job Posting Prediction

Technologies :HTML, JavaScript,React.js, Vite,Supabase

- Developing an AI-based system for Fake Job Posting prediction using SHAP+LIME
- Applying Explainable AI (XAI) techniques to make model predictions understandable and provide insights into why a particular prediction is made.
- The project focuses on improving transparency, interpretability, and user trust in AI-based Fake Job Posting prediction.

Project2— Explainable AI-Based Disease Prediction System *(Ongoing Final-Year Project)*

Technologies :Python, Machine Learning, Explainable AI (XAI)

- Developing an AI-based system for disease prediction using healthcare data.
- Applying Explainable AI (XAI) techniques to make model predictions understandable and provide insights into why a particular prediction is made.
- The project focuses on improving transparency, interpretability, and user trust in AI-based disease prediction.

TRAINING / INTERNSHIP

❖ **Data Science Intern(Teachnook Pvt.Ltd)**

- Collected and preprocessed machine-related datasets for predictive analysis.
- Developed machine learning models to predict potential machine failures.
- Evaluated model performance using appropriate classification metrics.
- Analyzed data-driven insights to support predictive maintenance and reduce unexpected machine downtime.

❖ **Inventory Management System(UFlex Ltd.)**

- Worked on inventory tracking and data organization concepts.
- Learned how inventory information is managed in a system.
- Developed an understanding of data accuracy and record management.
- Applied software development concepts to inventory-related processes.

❖ Data Science Intern(Sipher Web Pvt. Ltd.)

- Worked with data preprocessing techniques.
- Explored machine learning model development.
- Applied data analysis concepts to problem-solving tasks.
- Gained practical exposure to the machine learning development lifecycle.

❖ Data Science Intern(Academy of Skills Development)

- Preprocessed healthcare data for machine learning applications.
- Performed Exploratory Data Analysis (EDA).
- Explored feature engineering and data preparation techniques.
- Worked on developing and evaluating machine learning models.
- Studied prediction workflows for disease prediction.
- Used data-driven approaches to understand healthcare-related problems.

CERTIFICATIONS

- Teachnook Pvt.Ltd — Data Science with Python
  Duration→60-Day Internship.

- UFlex Ltd. — Inventory Management System Intern
  Duration→30-Day Internship.

- Sipher Web Pvt. Ltd.— Data Science with Python
  Duration→45-Day Internship.

- Academy of Skills Development — Data Science with Python
  Duration→60-Day Internship.

LANGUAGES

• Hindi — Fluent
• English — Professional Working Proficiency
• Urdu — Fluent

HOBBIES & INTERESTS

• Playing Mobile Games
• Business & Entrepreneurship

STRENGTHS

•Strong Business Understanding
•Entrepreneurial Mindset
•Problem-Solving Skills
•Quick Learner
•Leadership & Initiative
